Pro:Centric HOTEL MANAGEMENT SOLUTION

Pro:Centric Direct

The hotel content management solution Pro:Centric Direct offers easy and simple editing tools, making it easy to perform service and IP network-based remote management. The Pro:Centric Direct solution enables users to edit their interface easily by providing customized interface and efficiently manages all TVs in the room. The current PCD version provides IoT-based in-room control as well as voice control function through LG Natural Language Processing (NLP). These IoT and voice-related functions will be your starting point to prepare for the hotel rooms of next generation through artificial intelligence.

* Some devices may have limited compatibility with the IoT function.

VALUE ADDED FEATURES

* Picture shown is for illustration purpose only.

* Picture shown is for illustration purpose only.

Pro:Idiom

Digital Rights Management (DRM) technology provides access to premium content to help assure rapid and broad deployment of HDTV and other high-value digital content.
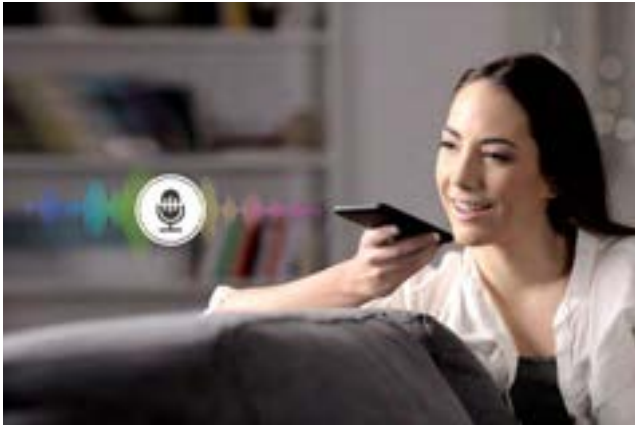

More Innovative LG webOS 5.0

Explore the latest LG Smart TV features. Newly added Gallery mode enables you to utilize the TV as an artwork which harmonizes with your space and life.

VALUE ADDED FEATURES

* Picture shown is for illustration purpose only.

Voice Recognition

From seamless interaction to consistent user experience, LG is going one step further to lead the commercial TV market by including voice recognition, allowing users to easily control LG TVs. Our stable and dependable solutions based on webOS and Pro:Centric Direct will significantly enhance the competitiveness of our products and services, helping you achieve a successful business in the future.

* Magic motion remote is required to use the feature. (Sold separately)

* Picture shown is for illustration purpose only.

Soft AP

Software-enabled Access Point (Soft AP) is a "virtual" Wi-Fi feature that uses TV as a wireless hotspot, enabling guests to connect their own devices to the Soft AP.

* Soft AP should be set in the installation menu after the TV is turned on.
* Smart Mirroring may not be operated at the same time.

* Picture shown is for illustration purpose only.

Hotel Mode

From channel selection to volume level, you can control the TV settings in business areas. Public Display Mode also enables you to restore default settings, as required, on the TVs.

* Picture shown is for illustration purpose only.

Welcome Screen

With the capability to display several images, LG Commercial TV allows for a greater variation of greeting messages in hotel rooms which make customers feel more welcome and cared for.

* All images are for illustrative purpose only.

VALUE ADDED FEATURES

USB Cloning

USB data cloning makes setting up multiple displays more efficient for optimal operation. Instead of setting up each display one by one, data can be copied to a USB for one display and can be sent to the other displays through a USB plug-in.

Remote Diagnostics

Save big expenses with the management of LG Commercial TV with Remote Diagnostics. Real-time Remote Diagnostics reports and detects error early in advance to prevent TVs from malfunctioning.

IR Out

Using the interactive set-top box, all LG Commercial TVs can be controlled with a single remote control.

External Speaker Out

Enhance the entertainment experience with an additional speaker. Guests can listen to the TV audio from anywhere, even from restrooms.

* This feature may have a restriction depending on installation environment.
